WOMEN WHO MADDEN MEN.

Do It Innocently, Because They Do Not
Know How to Be Wives.

Women may be charming, wholly devoted to their homes and their husbands, and yet be so tactless, thoughtless and aggravating as to drive husbands to the extreme of misery. Any observant bachelor could recall numbers of instances of women who from want of tact and intelligence are almost driving their husbands mad by getting on their nerves. They forget that busy men require absolute brain rest, change of scene, change of subject. They forget that, however worrying the little affairs of a household may be, the anxieties of a great business upon which the whole family's present and future depend are far greater. A friend of mine who is now nearly a millionaire told me in confidence that while he was sitting one night over his smoking room, fire wondering whether he could next day possibly survive a terrible crisis which was hanging over his head and might lead to disastrous bankruptcy, with debts to the extent of \$200,000 or so, his wife came whining into the room to say the butcher must be paid the next day. And the amount of the butcher's bill was under \$50.

It is on such occasions that a man wants a helpful wife—one who will tell him about or read aloud the last good novel, who will say: "Come, let us go to the theater tonight. You need change of scene." And, above all, one who knows just when her husband requires nothing more than to be left alone. It is women who get on their husbands' nerves that drive them to take bachelor holidays when they ought to be getting more enjoyment from the wife's companionship.

Of course there are men who are a ways out of sorts—dyspeptic because wife, or a lonely, who require strong minds to manage them—but there are very many others who only want judicious, sympathetic treatment to be the best husbands in the world. Avoid being silly, avoid saying silly things or trying to make conversation or commenting on some remark your husband has made. Read and think in order to cultivate intelligence and resourcefulness, with the object in view of being his counselor and his friend, and, above all, "obey." That word means much. —London Graphic.

WHEN they put a man in jail, he cannot follow his natural inclinations. His enjoyment of life is limited. He cannot eat what he wants to eat—he is limited to a very frugal diet. He is alive to be sure, but life doesn't possess very many advantages. Are not all these things equally true of a dyspeptic? For all of the real enjoyment he gets out of life, he might as well be in jail. He cannot eat what he likes, nor as much of it as he would like. If he is transgressing any of the rules of his diet, he is punished for it. He suffers much, gets little sympathy, with indigestion, and may lead to almost anything. Indigestion means a variety of things—it shows itself in many ways. At first, perhaps a little heaviness in the stomach, a little sourness, windy belchings and heartburn. Headaches begin to come pretty soon after that, and biliousness and a foul taste in the mouth in the morning. Chronic constipation is almost inevitable, and it is probably the most serious trouble that ever takes hold of a man. Its seeming simplicity is the thing that makes it most dangerous, because it leads to neglect. Constipation means that the body is holding poisonous, impure matter that should be gotten rid of. The poison is being re-absorbed into the blood and the whole body is being filled with it. Impurity in the blood may lead to almost any disease. There is no telling what it may come of. It is a danger to the health of all, and yet people are careless about it. It is the most serious thing in the world, and the easiest to cure if you go about it right. Dr. Pierce's Pleasant Pellets cure constipation. Cure it positively, certainly, safely. Cure it so it stays cured. Cure it so you can stop taking medicine.

And that is something that no other remedy in the world will do.

WHOLESALE FRAUDS.

Mr. Hanna claimed the whole country before the polls were closed. Reports were telegraphed from Chicago that in many precincts the ballots which were yet in the boxes showed a majority of four to one for McKinley. These reports were sent out for the purpose of influencing voters on the Pacific Coast, as they were received two hours before the polls closed. In Chicago, it is said, fifty or sixty thousand fraudulent votes were polled, many of the voters having been colonized by the trusts for the purpose of voting for McKinley. Debtors were importuned to vote for McKinley under penalty of having executions placed in the hands of the sheriff for refusal. Orders were sent to factories where large numbers of voters were employed for goods contingent upon the election of McKinley. Copies of these orders were given to employees who were informed that if Bryan was elected the factories would close. Tens of thousands of voters were purchased right out and every device known to ward heels and strikers to subvert the will of the majority was resorted to. In all the large cities in the Middle States the registry lists were stuffed and money expended liberally to secure a majority for the gold trust candidate.

If Mr. Hanna's methods are tolerated it is farcical to hold elections, as the will of the honest voters of the country does not prevail against the whole-sale fraud and corruption of the gold gang. These methods, sooner or later, will result in bloodshed if its repetition is not prevented by stringent legislation. Every good citizen will bow to the will of the majority when constitutionally expressed, but no good citizen will quietly acquiesce when he knows that his will and the will of his fellow citizens is being subverted by fraudulent means.

THE PRESIDENCY.

Tuesday night the Republicans claimed almost every State in the union for McKinley. Yesterday several of the States claimed by the gold men gave a majority to Bryan. Chairman Jones of the National Committee sent out a telegram that the returns received from 42 counties in Kentucky give Bryan 23,535 majority. His advice is that Bryan has carried Indiana and he is informed by Mr. Bryan that he has carried Nebraska. He is also informed that Oregon has given Bryan a majority and he claims that this will elect Bryan. The United Press and Associated Press differ in their estimates, the latter giving McKinley 220 electoral votes. Both parties still claim California and the complete returns from San Francisco show that there is not a difference of 150 votes between the two out of over 62,000 votes.

That the gold tidal wave is not as sweeping as the Republicans claimed there is no doubt, neither is there any doubt that Bryan has more honest votes than McKinley, but Hanna skillfully covers up his tracks and it may be difficult to trace the frauds right to him and prove in court that he is guilty.

Honest citizens while bowing submissively to the will of the majority will not consent to have the Presidency stolen by any party. If it is shown that McKinley was honestly elected every citizen should submit to the decree of the sovereign people, but if it appears that an attempt is being made to defraud the people and steal the Presidency every person who believes in the honest and free exercise of the right of suffrage, whether that person be for McKinley or Bryan, should protest against the outrage even to the extent of using force.

CLEVELAND EXULTANT.

There was rejoicing in the White House yesterday. President Cleveland who was elected by the Democrats four years ago and sold the people to the gold trust, is now exulting over the defeat of the people who honored him with the highest position in their gift and the victory of the gold trust. His sham battle with the Republicans on the tariff question no longer deceives and he cannot conceal the pleasure it affords him to have another tool of the gold trust chosen to succeed him as President.

THE STATE ELECTION.

Complete returns from 71 of the 154 precincts in Nevada give Bryan and Sewall 4,804, and McKinley 1,291. For Congress Francis G. Newlands has 4,152, Davis (Republican) 641, and Doughty (Populist) 1,182. At this rate Bryan will have a majority of about 7,000 in the State and Newlands very nearly as much.

The returns for County Commissioners show that the people are not very well satisfied with the present management of county affairs. The returns also show that the people have no objection to Shearer's backbones or to the Clerk's conduct of his office.

What Hanna Says.

CHICAGO, Nov. 4.—Mark Hanna says the returns from Tennessee, New York and North Carolina make those States doubtful. The final count will give McKinley no less than 227 electoral votes. Washington is Democratic. Oregon is doubtful.

JONES STILL CONFIDENT.

Estimated Republican Majorities Greatly Reduced.

NEW YORK VERY CLOSE.

Hanna Says Tennessee, North Carolina and New York Are Doubtful—Governor Altgeld Concedes Defeat—Results in Different States.

Advices late to-night are most encouraging to Bryan's supporters. Estimated Republican majorities in all of the middle West States are being greatly reduced. New York is classed as doubtful. Chairman Jones claims Kentucky, Tennessee, West Virginia, Indiana, and North Carolina, all claimed by the Republicans last night.

Jones Confident of Success.

SPECIAL TO THE JOURNAL.
CHICAGO, Nov. 4.—Chairman Jones of the Democratic National Committee, has issued the following:

"We cannot lose. The Republicans are perpetrating frauds. Indiana is safe for Bryan. Iowa's later returns are our way. Our people say Kentucky is all right. California and Oregon are for Bryan. I have no fear of West Virginia, and I do not concede McKinley's election."

Mr. Jones's statement is not borne out by the returns received up to this hour. Jones also says advices up to 7 p. m. indicate that Bryan has carried Kentucky, Indiana and Michigan.

Chairman Jones to-night claimed as certain for Bryan 210 electoral votes, and said only one State, Michigan or Indiana, was needed to make the silver Democrat triumph.

The Latest Returns.

CALIFORNIA.

SAN FRANCISCO, November 4.—Complete returns from this city are, McKinley 31,148, Bryan 31,006. Chairman Republican State Committee claims the State for McKinley by 8,000.

One hundred and ninety-eight precincts out of 319 in Los Angeles, Santa Barbara, San Diego and San Francisco counties give McKinley 11,303, Bryan 12,483, 1,533 precincts out of 2,377 in the State give McKinley 111,288, Bryan 107,929.

In 1,876 out of 3,877 precincts McKinley gets 128,795, Bryan 121,458.

Complete returns from every precinct in San Francisco county except the 11th district are as follows, McKinley 30,848, Bryan 30,462.

In the Fourth Congressional District Maguire, Dem., receives 18,769, O'Brien, Rep., 10,792.

In the Fifth Congressional District Loud receives 12,375, Kelly, Dem., 7,891, Kinne, Pop., 5,229. Loud's plurality will be 7,940. In San Francisco the Democrats elect four of the State Senators, Wolfe of the Twenty-first District being the only Republican elected.

SOUTH DAKOTA.

YANKTON, November 4.—In 299 out of 1,037 precincts give McKinley 1,800 plurality. Latest returns show gradual Republican gains in Populist strongholds; indications now are that the legislature will be Republican and the State will go for McKinley by 8,500. Returns are coming slow on account of snow and heavy roads.

ARIZONA.

PHOENIX, November 4.—Marcus A. Smith, Silver-Democrat delegate to Congress, is elected by 1,000 majority.

OREGON.

PORTLAND, November 4.—Complete returns from all but six counties in this State give McKinley 33,057, Bryan 23,632. Complete returns will not materially change results.

WASHINGTON.

TACOMA, Nov. 4.—Two hundred and twenty-nine precincts out of 1,100 in this State give McKinley 10,694, Bryan, 12,429.

TEXAS.

HOUSTON, Nov. 4.—This State has gone Democratic by from 50,000 to 60,000.

KANSAS.

EMPORIA, Nov. 4.—Kansas is so close that no estimate can be made.—Returns are very meager.

What Bryan Says.

SPECIAL TO THE JOURNAL.

OMAHA, Nov. 4.—Mr. Bryan gave out the following last evening:

"The Democratic National Committee claims enough votes to give a majority in the Electoral College, but the vote is very close in several of the States and the result cannot be known positively until the entire vote is counted."

"In close contests it is well for both parties to watch the returns to guard against the possibility of mistake, intentional or unintentional."

Bryan Encouraged.

SPECIAL TO THE JOURNAL.

LINCOLN, November 4.—Mr. Bryan, in answer to telegrams asking for information, to-day gave out a general answer to the effect that the Democratic National Committee claimed a

majority in the electoral college, but that the vote being close in several States the result could not be positively known until the entire vote is counted. The scene at the Bryan residence to-night was much the same as last evening, Bryan receiving returns in the library. As reassuring bulletins came in the candidate showed by his manner that he felt more encouraged. He talked very conservatively, indicating, however, that an official count in some states might be necessary to determine results.

Small Riot in Lincoln.

LINCOLN, Neb., Nov. 4.—A small riot occurred this afternoon between Republicans and Democrats before the Democratic headquarters, this city. No one was seriously injured.

A monster Bryan parade is passing through the city headed by bands. Much enthusiasm prevails. The Democrats claim Bryan's election. Chairman Dahlgren of the Nebraska State Central Committee, telephoned from Omaha to-day that the Bryan ticket has carried Nebraska by 12,000 to 15,000.

Comments of London Press.

LONDON, Nov. 4.—The Star, in an article under the caption "United States Repudiates Currency Juggling," says "It is creditable to American Democracy that they fastened upon the paramount issue, disregarding all others."

The Pall Mall Gazette says: "The decision of the American electors will be universally accepted as the most creditable, and implies that Democracy when confronted with vital issues will rally in reality and repudiate shame."

Altgeld Welcomes Retirement

CHICAGO, Nov. 4.—Governor Altgeld issued a statement this afternoon conceding his defeat and thanking the Democrats for the loyal support given him. He scored President Cleveland for betraying the Democratic party into the hands of stock jobbers and monopolists. He welcomed retirement on account of ill health.

Complexion of the Senate.

CANTON, November 4.—Joseph P. Smith, one of Major McKinley's closest friends, says: "From best information at hand the United States Senate after March next will consist of forty-nine sound money Republicans and Democrats and forty-one silver Republicans and Democrats."

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, you may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Old People.

Old people who require medicine to regulate the bowels and kidneys, will find the true remedy in Electric Bitters. This medicine does not stimulate, and contains no whiskey nor other intoxicant, but acts as a tonic and alternative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50c. per bottle at Hodgkinson's Drug Store.

Diphtheria Cure.

The testimony of a prominent physician:

FOUNTAIN CITY, Ind., June 17, 1895.

This certifies that I have been using V. O. in my practice. I have never found any medical preparation in 46 years of practice that is calculated to do so much good in so wide a range of diseases and leave no after bad effects.

In Diphtheria it has proved a perfect specific in my hands, and I had rather depend on it alone in that dreadful disease than the whole popular Materia Medica with that left out. For sale by T. P. Bradshaw, Agent.

The County Officers Elect.

Complete returns have been received from all the precincts of Washoe county except Salt Marsh. The county officers elect are as follows:

For the Legislature: S. J. Hodgkinson, F. H. Norcross, F. Lemmon and O. H. Stoddard; Sheriff, W. H. McInnis; Clerk, F. B. Porter; Auditor and Recorder, B. C. Shearer; Treasurer, D. E. Boyd; District Attorney, T. V. Julian; Commissioners, H. H. Beck and George Frazier; Surveyor, T. K. Stewart. The contest between J. V. Peers and F. O. Updike for Coroner is close and the vote from Salt Marsh may be necessary to decide the fight. J. J. Linn was elected Justice of the Peace for Reno township and Ward McNelly as Constable.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her, and she says it saved her life. Mr. Thos. Eggers, 139 Florida St. San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results of which these are samples, that prove the wonderful efficacy of this remedy for coughs and colds. Free trial bottles at Hodgkinson's Drug Store. Regular size 50c. and \$1.

Viavi Cures.

Have you catarrh? Use liquid Viavi. Is your blood poor? Use Viavi tonic. Have you stomach trouble? Use Viavi tablets.

Have you a cold? Use Viavi cerate. Have the children burned themselves? Use Viavi cerate.

Use it whenever there is pain or inflammation. Have you rheumatism? Use ammoniated arnica.

Have you piles? Use Sano. Have you uterine trouble? Use the Viavi capsules and cerate.

All to be found at Mrs. B. E. HUNTER'S, Fourth Street.

A Special Offer.

John Sanderland is offering special inducements in his several lines. Read his new ad. and prices. Men's and boy's overcoats, suits, hats, caps, boots and shoes. His stock of ladies' and misses' shoes cannot be beaten anywhere on the coast. His special offers cannot be equaled in price or quality by any competitor. Call on him now while the opportunity offers and provide yourselves for the winter.

North Truckee School Report.

Following is the report of the North Truckee School for October:

Number of boys enrolled, 9; number of girls enrolled, 19; total number of boys and girls enrolled, 19.

Roll of Honor—Willie Grose 98, George Grose 97, Carrie Balmann 96, Hazel Van Meter 98, Gladys Frazer 97, Lizzie Grose 95.

J. A. HYDE, Teacher.

AN IMPORTANT DIFFERENCE.

To make it apparent to thousands who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts as a restorative condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Company only, and sold by all druggists.

Some Fine Stock.

Grant S. Pyle, foreman for S. Silverberg, purchased 15 carloads of fine cattle from Cambron Bros. The cattle will be fed at Orin Ross' and Mrs. Thomas' ranches. A finer lot of stock seldom comes to the Truckee Meadows.

Almost a Fire.

The Western Union boys discovered a blaze this morning about 12:30 in the rear of the Inverness House which might have caused a serious fire had it not been seen in time. A few buckets of water, however, put it out and no alarm was turned in.

MCKINLEY NOT ELECTED.

So Says the People's Party Chairman.

RETURNS HELD BACK.

Latest Reports Justify His Claim That Bryan is Elected—No Repetition of the Tilden Episode.

Special to the JOURNAL.]

CHICAGO, November 4.—The following statement of the Presidential situation was issued to-night by Chairman Washburn of the Chicago headquarters People's Party Committee:

"To voters. Our facilities for receiving election returns are equal to any. We know from private advices and returns up to date that McKinley is not elected. On the other hand, latest returns justify our claim that Mr. Bryan is elected. It is one of the peculiarities of Republican enterprise that they always claim everything in sight a few hours after election. In 1876 as well as in 1892 it was not known for three or four days which candidate had won. Although early returns indicated Republican success, Democratic followed. Again, four years ago, early returns favored Harrison's election while subsequent ones elected Cleveland. This year early returns favored McKinley because they come from Eastern and Middle States and from the cities of other States, while returns from the South and West were withheld so as to stampede public sentiment that McKinley was elected, whether he was or not, and thus create sentiment in advance which would operate to his advantage in case the election was contested, while on the other hand, had the first returns announced Bryan's success and a contest resulted, there would be an uprising of the people through fear of a repetition of the Tilden episode. We have positive evidence that the Republican National Committee has wired their State committees to claim certain States which are in doubt, fearing that subsequent returns might indicate Bryan's election. We shall soon vigorously press the question, viz., if it is not for the purpose of manipulating them why are they held back. We want American people to be patient and calm and to wait for the official returns and pay no attention to false reports sent out by manipulating committees. We feel justified in assuring the people that if Bryan is elected he will be seated. The will of the people will never again be defeated through the manipulation of returning boards to capture the Presidency. The political crime of 1876 will be resisted if repeated."

INVENTION OF THE TELEPHONE, AS TOLD BY ITS AUTHOR.

Dr. Bell, Like His Father, Was Interested In Efforts to Instruct Deaf Mutes.—While Engaged In This Line of Work the Telephone Was Suggested to His Mind.

The story of how the telephone came to be invented was told by Dr. Alexander Graham Bell during his attendance on the meeting of the American Association to Promote the Teaching of Speech to the Deaf, held at Mount Airy. Dr. Bell's father was an elocutionist in England and well known as a corrector of defects in utterance, as his grandfather had also been. His father had devised a method of representing the action of the vocal organs by symbols, similar to those in chemistry. In like manner letters representing the various organs of speech, with figures attached indicating the positions of those organs, would represent certain sounds or spoken words. A person placing his tongue, teeth, lips and palate in the position indicated by a certain formula would produce a definite sound. The use of such a system for the instruction of deaf mutes was not overlooked by Dr. Bell's father, and experiments were made in a little school in London. Dr. Bell became interested in the subject and developed a method of teaching the deaf to speak. His father had lectured in this country, and in this way the system had come to the knowledge of the deaf and dumb institutions in Boston and of the prominent educators in that city, and in 1871 the board of education invited Dr. Bell to see what he could do in the Boston School for the Deaf. He accepted the invitation and put the system in practice there with very great success, and it was introduced in one institution after another throughout the country.

Dr. Bell did not at that time believe it was possible for deaf mutes to understand speech by looking at the mouth of the speaker. The mechanism of speech was, he thought, too complicated for that. He therefore set to work to invent an apparatus which would repre-

sent speech to the eye as it was spoken by throwing a picture of the vibrations on the screen. He commenced his experiments with Koenig's manometric flame apparatus, which, by means of a vibrating diaphragm, stretched on a piece of wood divided into two parts, and a series of mirrors produced a band of light with wave effects, according to the sound uttered. The flame was too feeble to be photographed. Dr. Bell then turned his attention to another apparatus, called a phonograph, in which was stretched a membrane, against which a person spoke and which carried a little pencil over a smoked glass, which made a curved line that could easily be photographed.

He made many hundreds of tracings, but unfortunately they did not correspond with the flame pictures before described, and he attributed the trouble to the clumsiness of the apparatus. He therefore mapped out changes in the construction of his phonograph, and thought he saw in his drafts a rude analogy to the construction of the human ear. Instead of bones actuated by a membrane, as in the ear, he had a lever of wood moved by a membrane. He therefore concluded to modify the shape to correspond with the human ear and went to a distinguished artist in Boston, Clarence A. Blake, who suggested his experimenting with an actual human ear. Dr. Blake got an ear and dissected it for Dr. Bell so as to expose the membrane and the little bones. The doctor attached a pencil to the bone called the anvil, moistened the membrane with glycerin and water and constructed an outer ear. With this, beautiful tracings were made on the smoked glass. The tracings, however, were different from what he had before produced.

While he was engaged upon the above line of search at the Institution for the Deaf, he was also developing an invention out of which he expected to make some money—viz, an electrical multiple telegraph, by which he could send many messages simultaneously over one wire. Dr. Bell simplified this apparatus greatly. He noticed that when half a dozen were operating together there was a resultant electrical effect, and that but one sending magnet was necessary to produce all the sounds. Further consideration convinced him that he could not only send any number of musical tones simultaneously, but sounds of any kind. His familiarity with the nature of speech had taught him that the term "quality of sound" means really a choice of different musical tones having different intensities, and he could conceive how a sound of any kind whatever, even words, might be transmitted if one of these reeds could be moved in front of an electric magnet in the resultant way in which the air is moved when a sound is uttered. His experiments in vibrations had taught him the form of the sound waves. The problem was to make a mass of steel vibrate in the way the air does. The problem was in his mind at the time he was making the experiments with the human ear, before described.

The thought suddenly struck him that there was a great disproportion in mass between the bones of the ear and the mechanism that connected them; that these bones were, relatively to the membrane, very heavy and very massive. Why, then, could not the piece of iron or steel be moved by attaching it to a heavier and stiffer membrane, of the present telephone form. The problem was solved. It will thus be seen that the telephone was the result of two separate lines of thought.—St. Louis Globe-Democrat.
